

METEORS & METEORS, SMALL FOAM EARPLUGS

Meteors unique curved design provides exceptional comfort. The contours follow the shape of the ear canal which means less pressure at the smallest diameter of the earplug. Meteors innovative undercut design affords a secure fit, all day long. The large base helps provide proper insertion, fit, and removal. The same high-level of comfort and fit is available to women and other workers with smaller ear canals with Meteors, Small. Both sizes of Meteors offer superior protection.

AVAILABLE IN PLUGSTATION® DISPENSER

Moldex offers the convenience, increased compliance and cost savings of our popular earplug dispenser, the PlugStation, with Meteors® foam earplugs, Uncorded. With the PlugStation, you can afford to put earplugs in all the places they're needed. PlugStation's convenience, ease of use, and high visibility lead to higher compliance and by giving quick access to workers it also saves worktime.

- Compliance — High visibility to increase awareness for your hearing conservation program.
- Convenience — Hang a PlugStation anywhere plugs are needed.
- Cost Savings — Workers take one pair at a time so there are no wasteful grabbing of multiple pairs.

FEATURES

- Highest independently tested NRR available – NRR 33 for regular Meteors and NRR 28 for Meteors, Small.
- Soft, slow recovery foam and contoured shape molds easily to the ear canal for all day comfort.
- The contours follow the shape of the ear canal which means less pressure at the smallest diameter of the earplug.
- Meteors innovative undercut design affords a secure fit, all day long.
- Meteors are independently tested to ANSI S3.19-1974.
- Look for the exclusive colored streaks and swirls and bright green color as symbols of Moldex quality.
- 100% PVC-Free.

Mean Attenuation (dB)	30.2	34.0	35.7	35.6	37.3	41.1	43.1	45.5	43.4	NRR 28	CSA AL
Standard Deviation (dB)	5.0	5.0	4.2	3.5	3.1	5.6	5.5	5.3	4.4		

WARNING TO USER

1. Use this laboratory-derived attenuation data for comparison purposes only. The amount of protection afforded in field use often is significantly lower depending on how the protectors are fitted and worn.
2. Failure to follow all instructions could result in hearing loss or injury.
3. Failure to obtain a proper fit will reduce effectiveness of hearing protectors and could result in hearing loss or injury.
4. Meteors earplugs must only be used as part of a hearing conservation program that complies with applicable local safety and health regulations.
5. Overprotection can be dangerous. The wearer must be able to hear warning signals.
6. Wearers with hearing loss should exercise extreme caution.
7. It is the employer's responsibility to ensure that the type of hearing protector and its NRR is appropriate for the user in their particular workplace.
8. Use caution when working around machinery or other equipment to ensure neck cord does not become caught or entangled.
9. Failure to follow these warnings could result in serious injury or death.

MOLDEX TECHNICAL ASSISTANCE

Moldex provides all of the technical assistance required to set up a hearing protection program. For more information call +1 (800) 421-0668 or +1 (310) 837-6500 ext. 512/550 or E-mail: tech@moldex.com or visit www.moldex.com.

Keep earplugs away from infants and small children as they may get caught in the windpipe and create a choking hazard.
