

REUSABLE EARPLUGS

FITTING INSTRUCTIONS

GLIDE[®] TRIO

1. Reach over the head and pull top of ear upward.
2. With other hand grasp plug handle and gently push and twist into ear canal until a tight and comfortable seal is made.
3. Incorrect fit.
4. Correct fit.

TO ATTACH OPTIONAL CORD:
Form a loop at end of cord, position around groove at base of handle then pull down to lock in place.

COMETS[®]

1. Reach over the head and pull top of ear upward.
2. Insert forefinger into finger pocket and grasp underneath with thumb. Vigorously wiggle while pushing into the ear canal until comfortably inserted and a good seal has been achieved.
3. Incorrect fit.
4. Correct fit.

ROCKETS[®] | JETZ[®]

1. Reach over the head and pull top of ear upward.
2. With other hand grasp plug handle and gently push and rock into ear canal until a good seal is made.
3. Incorrect fit.
4. Correct fit.

CAUTION: Earplugs must be fitted and worn correctly to provide effective protection. Wash or clean hands before use. Remove with a slow twisting motion to break the seal. Due to the tight seal, rapid removal may damage eardrum. Consult your supervisor or an audiologist before wearing. See box for warnings, cautions and limited warranty.

USER FIT CHECK: In a noisy environment with earplugs inserted, cup hands over both ears and release. If the earplugs are inserted correctly, you should not notice a significant difference in attenuation. If a proper fit has not been obtained, move to a quiet area and repeat fitting instructions.
